

Working Prototype Known Problems Report

Santa Cruz Housing Crisis

March 11, 2016

List of functions not working correctly:

1. ITEM: input/action that causes failure; location of fault; possible action for removal of fault
2. Post listing form: Name, Phone Number, Email does not have restrictions on the parameters; SCHousingCrisis/bam/db/schema.rb; http://edgeguides.rubyonrails.org/active_record_migrations.html
3. Map: Moving from page to page causes map to load erratically; Google Maps API JS must be loaded, body element is only loaded for page transitions, not head; on page:load

Features not implemented:

1. Sorting by category
2. Paginating
3. Resizing Images
