

Sprint 2 Report

Santa Cruz Housing Crisis, February 14 2016

- Actions to stop doing:

Stop playing loud ho-slappin' rap while working. Meeting only to check progress.

- Actions to start doing:

Have more group work.

Communicate more on slack.

- Actions to keep doing:

More peer programming. Keep energy and focus up in order to complete task on time.

- Work not completed:

- Work Completed:

- (2) As developers, we want to create a database that takes in Excel files of data, and indexes the data in a sensible way, so that the user may view the desired data.
 - Task 2: Create Relational Schema
- (*story points*) As a user, I'd like to visualize one set of data of a specified field, so that I may better visualize Santa Cruz's housing crisis.
 - Task 1: Write queries for a specified field in relational database
- (*story points*) As developers, we'd like to build a web application that enables visualization of the data inputted so that information can be compared between regions of Santa Cruz.
 - Task 1: Embed openstreetmap into the server
 - Task 2: Map addresses on openstreetmap according to the geolocation given in our data

- Work completion rate:

Total number of user stories completed: 3

Total number of estimated ideal work hours completed: 36

Total number of days during sprint: 10

user stories/day: .3
